|--------------------|-------------------|---|
| Samuel Kuhn | Yesterday's work: | Completed VF use case on Orders and Products; first attempt at testing |
| | Today's work: | primary focus is to get through as much apex testing as possible; also want to do some initial work on the presentation - would like to get some direction from Nick on that |
| | Roadblocks: | My testing files don't show up in VS Code - not sure if I need some specific file structure - was able to work around this by just doing testing in the Developer console |
| | Comments: | I would really like to learn how to step through my code using the Developer Console. I think this could drastically speed-up my debugging process - mainly to see the values of variables at different times in execution. |
| Taylor Billingsley | Yesterday's work: | Visualforce page ready, just needs testing and some design (fixed the amount of records that show, might add next buttons for each page) |
| | Today's work: | Going to work on LWC content and test code + styling; I want to create a static resource styling sheet for all of our use cases |
| | Roadblocks: | N/A |
| Nicholas Kroeger | Yesterday's work: | Completed all required non-testing Use cases |
| | Today's work: | Reformat every phone number in the database so that I don't have to figure out how to include format into the valid rule. Begin prepping pres, |
| | Roadblocks: | Stuff we learned yesterday a but confusing |
