Jeff		p1 study quizzes trello	practice for cert and finish quizzes	took quizzes, worked on P1, focus on force study, trello
	Yesterday's work:			
	Today's work:	quizzes	badges cert practice	quizzes, focus on force study, P1, cert reservation, presentation
	Roadblocks:	time use case	qty of thing this week time	doing better at time management but still wish I had more time to manage
	Comments:			
Nick	Yesterday's work:	Security badge, P1 stuff	A few use cases, some troubleshooting	Doing Use cases, study for cert
	Today's work:	P1 Stuff, if I finish P1, either begin pres prep, or do security badge	Figure out best solution to an issue, studying. Ideally finish use cases	finish use cases, cont studying
	Roadblocks:	Stuck on superbade setting, ended up burning time I intended to use on P1, so fell behind	Unsure about solution choices	License issue to complete use case
	Comments:			
Parker	Yesterday's work:	Stuck on use case(s), got stuck on security badge	completed some use cases, quizzes, studied for exam	completed use cases (have 1 left), studied
	Today's work:	P1, quizzes, loom	finish use cases, security badge, study	finish last use case and take practice test once outside of class
	Roadblocks:	Stuck on SF stuff, not enough time	IP range use case, wondering if can just demonstrate for one profile	need some clarification on last use case
	Comments:			
Sam	Yesterday's work:	Completed all but one of my personal use cases; completed phase 1	Finished last personal use case; completed mandatory team use case	Reviewed Missed ?s on 1st practice exam (ADM); created P1 presentation template
	Today's work:	work on completing p1: last personal use case; mandatory team use case as well	Study Process Automation + Debugging; First Focus on Force attempt	Review 2nd practice exam results
	Roadblocks:	payment object can't take on approval process - solution: create a reimbursement object for approval	N/A	n/a
	Comments:		I'd like to get started on the presentation slides for P1 by the end of day tomorrow	
Taylor	Yesterday's work:	Working on use cases, studying for today's quizzes, looking over PDP requirements	the quizzes; a few use case	Solved use cases using method Ethan taught via cust objs; FoF Study Guide review (Obj Man.) & L. A.B.
	Today's work:	Doing quizzes, completing Loom videos, working on more use cases	focus on force exams; security badge; finish more use cases	Cert-Exam prep; Work for use cases/ start slide presentations; security badge/other badges; turning in user portfolio (Phase I) task
	Roadblocks:	Workaround on this one use case's permission sets to give the user just enough access to fulfill their roles without giving too much	can't get case access for a user (Alexandra Atello)	Standard Platform License doesn't have access to the standard Case object, and permissions won't allow access unless the User License permits access to the object itself
	Comments:			Note: Standard column width will now be 300
