Jeff	**Yesterday's work:**	p1 study quizzes trello	practice for cert and finish quizzes	took quizzes, worked on P1, focus on force study, trello	finished use cases study for adm cert
	Today's work:	quizzes	badges cert practice	quizzes, focus on force study, P1, cert reservation, presentation	quizzes, focus on force study, badges, presentation
	Roadblocks:	time use case	qty of thing this week time	doing better at time meanagement but still wish I had more time to manage	time
	Comments:				
Nick	**Yesterday's work:**	Security badge, P1 stuff	A few use cases, some troubleshooting	Doing Use cases, study for cert	Finished Use cases, marginal studying
	Today's work:	P1 Stuff, if I finish P1, either begin pres prep, or do security badge	Figure out best solution to an issue, studying, Ideally finish use cases	finish use cases, cont studying	
	Roadblocks:	Stuck on superbadge setting, ended up burning time I intended to use on P1, so fell behind	Unsure about solution choices	License issue to complete use case	Licences, decided to just bypass the issue w/ the sam account
	Comments:				
Parker	**Yesterday's work:**	Stuck on use case(s), got stuck on security badge	completed some use cases, quizzes, studied for exam	completed use cases (have 1 left), studied	studied test, trailhead badges, practice test
	Today's work:	P1, quizzes, loom	finish use cases, security badge, study	finish last use case and take practice test once outside of class	p1 presentation stuff, badges, practice test
	Roadblocks:	Stuck on SF stuff, not enough time	IP range use case, wondering if can just demonstrate for one profile	need some clarification on last use case	need to do more badges
	Comments:				
Sam	**Yesterday's work:**	Completed all but one of my personal use cases; completed phase 1	Finished last personal use case; completed mandatory team use case	Reviewed Missed ?s on 1st practice exam (ADM); created P1 presentation template	Reviewed Missed ?s on 2nd practice exam (ADM)
	Today's work:	work on completing p1: last personal use case; mandatory team use case as well	Study Process Automation + Debugging; First Focus on Force attempt	Review 2nd practice exam results	Do presentation today; run a practice presentation today; trailhead badges
	Roadblocks:	payment object can't take on approval process - solution: create a reimbursement object for approval	N/A	n/a	work overload
	Comments:		I'd like to get started on the presentation slides for P1 by the end of day tomorrow		
Taylor	**Yesterday's work:**	Working on use cases, studying for today's quizzes, looking over PDP requirements	the quizzes; a few use case	Solved use cases using method Ethan taught via cust objs; FoF Study Guide review (Obj Man.) & L. A.B.	Working on flow
	Today's work:	Doing quizzes, completing Loom videos, working on more use cases	focus on force exams; seucrity badge; finish more use cases	Cert-Exam prep; Work for use cases/ start slide presentations; security badge/other badges; turning in user portfolio (Phase I) task	Work on Trailhead badges again
	Roadblocks:	Workaround on this one use case's permission sets to give the user just enough access to fulfill their roles without giving too much	can't get case access for a user (Alexandra Atello)	Standard Platform License doesn't have access to the standard Case object, and permissions won't allow access unless the User License permits access to the object itself	Flow issues
	Comments:			Note: Standard column width will now be 300
