Person		Day 1	Day 2	Day 3	Day 4	Day 5		Day 6	Day 7	Day 8	Day 9	Day 10
Jeff	Yesterday's work:	Worked onand completed several challenges and trying to use GIT mor regularly	I worked on trailhead and took the quizzes I managed to finish all the badges he assigned and actually started a new badge for GIT	Worked on GIT badge on Trailhead and then studied for QC and worked on trello kanban board	Worked on dex and looked at the project spreadsheet and made some adjustments to the trello scrumban board I also worked on a few of the challenges	Worked Dex and use cases and did scrunban board	**Jeff** Yesterday's work:	Worked on DEX in class -- Worked on P1 items and made some adjustments to trello scrumban board added use case numbers to boxes for easier identification and adjusted them so we could seewho is working on what added item numbers to project doc	Took quizzes and worked on badges after class worked in class on the user interface and the PDP assignments	worked on Badges and some objects in P1 reviewed revature docs and finished PDP went through QC	Worked on P1 managed to get a use case finished made sure all my pdp was up to date moved some boxes around on trello	3 use cases finished and worked about 85%successfully building the flows up wroked on P1 use cases and worked on portfolio
	Today's work:	Starting the SDLC on Project 1 take our quiz and answer some QC questions	Hopefully starting the SDLC on P1 and continuing on the GIT trailhead	trailhead head badges and dex 4 and trello board	continue with DEX and the project spread sheet and badges	continue with DEX and the project spread sheet and badges	Today's work:	quizzes p1	P1 P1 P1 badges	P1 P1 Badges	P1 portfolio creation flows and badges	P1 Dex403 Badges PDP use cases
	Roadblocks:	I found shortcoming with the source control in vscode and in the GIT there seemed to be a disconnect and it caused some delays could have been that I am just not totally comfortable with each tool yet	thinking about P1	anxiety on the first QC and not knowing salesforce	No real roadblocks that I can really remember other than running out f time	never got a chance to get work on badges so time	Roadblocks:	time and communication	hoping we can turn 2FA on the playground so we can do the badge work	time	had an issue with flows and the p1 use case time	following along with flow creation was rough and time limitations

Nick	Yesterday's work:	Project presentation, light studying	Trailhead studying, html/css/js quizzes	1:1, studying, QC, intro to DEX403	Began work on 403/salesforce intro, finished required trailheads	Dex403/salesforce training, Brief use case analysis beginning	**Nick** Yesterday's work:	light studying, beginning to develop use cases, 403/ SF learning	Begginings of use case implementations, UI learning	Salescloud, servicecloud stuff, worked on security badge, QC	Back to dex 403, revising ERD (imcomplete),	Dex403/flow work, looking for missing objects etc, planned out use cases for P1
	Today's work:	Quizzing/progress reports	1:1, QC studying, continue trailhead	Trailhead, dex403 training, maybe begin project 1, discuss project 1	Begin design phase of P1, decide what parts to give to any given member, continue salesforce training	Continue use case analysis, 'sprint' retrospective	Today's work:	Begin sprint, assign as many use cases as possible (be realistic)	QC? Continue learning SF, implement/review ERD	Security Superbadge, continue learning, port data to new owner	Continue 403, work on use cases, port new erd to lucid, portfolio meeting	Implement a few use cases, keep studying, Security superbadge, try to assist others
	Roadblocks:	Noon is no longer noon, DST as normal is dumb. Cannot find location of profesaionism intro video. Have to leave a bit early today ~5:15-5:30	unable to start p1	do not know Salesforce yet to make any significant progress on p1	N/A	This week's sprint was pretty sparse due to attempting to do so while in the beginning of learning SF	Roadblocks:	Slight frustrations implementing use cases, want to confirm profiles won't remove needed permissions from HR group	Licences restrictions make working very frustrating	General stuff, none in particular	Licences issues, lookup relationships not appearing? (Maybe have a fix?)	flow issue 8-2/8-3, time management

Parker	Yesterday's work:	Completed P0, studied notes for QC	Worked on trailhead badges, studied for QC	Studied for QC, had QC, started DEX403	Worked on Trailhead, Salesforce exercises for DEX403	Studied Salesforce Notes, trailhead badge	**Parker** Yesterday's work:	Salesforce note studying	QC studying, Salesforce studying, security trailhead badge	QC, security badge progress, 403dex	403dex, security badge, identified objects for use cases	403dex
	Today's work:	Complete quizzes, complete QC, complete video introduction	QC, study last week's content	Trailhead, DEX403, P1 progress	DEX403; P1 progress, possibly Trailhead	Study notes, trailhead badges, P1 work	Today's work:	P1, quizzes, check PDP requirements, 403dex	QC, 403dex, P1	403dex, security badge, P1	403dex, security badge, P1	403dex, security badge, p1
	Roadblocks:	lack of sunlight from timechange makes mornings rough	Confused some of terminology from last week's content	Need to progress in Salesforce	None	Confused on some SF terms still	Roadblocks:	time management with other job, need to set aside more time for this	None atm	Still getting feet wet with solo salesforce navigation		wifi kept going out then went out for the entire day so looking to make up lost time

Sam	Yesterday's work:	Completing styling on P0 website; practicing QC questions in Lab	Assessments; Reading through Trailhead material – got to half-way through Salesforce Platform Basics	Work on Trailhead badges; QC; Start Kanban Board for P1	Setup Ampfline Training Playground; Salesforce lessons 1 and 2	Homework Exercise 4-6; Studied Salesforce Notes	**Sam** Yesterday's work:	Salesforce Notes; Choose one Use Case	Worked on Deep Analyzing First Use Case #6	Worked with Jeff and Taylor on collecting objects for	Completed first use case – add certifications w/ Quick Action	Made my second use case
	Today's work:	Gather P1 requirements, analyze and begin P1 design;	QC; I really want to begin requirements gathering for P1	Revise Kanban Board Structure; Get a shared Salesforce Org setup for P1	Checkout ERD with Ryan	• Review the ERD with the Team Review use case analysis with Nick; Select my use cases; P1 Retrospective	Today's work:	Take further notes on last weeks salesforce notes; Start first use case	Talk to team about how to update ERD	Making my first Use Case, Work on Super Badge; Review last weeks notes	Decide on + Work on another use case	Start on a 3rd use case, work on security super badge, study
	Roadblocks:	Had a bug with P0: not sure how to cleanly add elements on select element change event without duplicating elements on second select	Been occupied with assessments and required work – haven't had time to dive into P1; Don't have any information on P1 to begin gathering requirements	Co-ordinating P1 is difficult - it's a big project and there's a lot of us	Not clear on what the ERD will diagram/how to proceed with P1 before the ERD is done	What exactly is a tool in the context of use case analysis? Please give me a concrete example	Roadblocks:	none - just time	Our ERD is missing an important object – Certifications Held; ERD has unnecessary objects – Employee (should be User)	User object can't be a Master – solved – use the Contact object in similar situations – specifically when the "worker" doesn't need access to the salesforce org even if they work for the company	Couldn't pull up Price Book Entry as a Related Object in the Product Formula Builder - rendering prices on the product page	time
